

Treatments

| | |
|---|-----|
| Rebuilding | £20 |
| Infrared Application | £40 |
| Protein reconstruction for very damaged hair with rough, porous structure. For over processed, chemically treated and fragile hair; curly, frizzy, dehydrated hair or for hair loss and shedding. | |
| This treatment is designed to add strength, shine, re-build amino acids and repair the keratin chains with its energising, multi-vitamin complex, ceramides F and hydro minerals, which are added to the formula for a tailored, personal service after assessing the hair. | |

| | |
|--|-----|
| Rebalancing | £20 |
| Micronised Sage and Amazonian Clay bring balance back to an oily, greasy scalp. This leaves a feeling of freshness, balance and detoxification. Contains Bugbane which inhibits hyper-production of sebum. A follow up take home treatment is advised. | |

| | |
|---|-----|
| HBright Gloss & Shine Restore | £20 |
| For lifeless, faded and dull hair; to enhance brilliance, reflection and intensity on natural or coloured hair. | |

Also available to order Oway and Senses face cleansers, toners, masks and moisturisers.

Hair plaiting/eco-glitter braid workshops available.

Senses is eco-sustainable to help our planet. We use biodegradable bags, towels and gowns and energy-saving hairdryers, heaters and lightbulbs.

Our electricity is from "green energy" suppliers and we joined "green salon collective"- hair trimmings are recycled as mats for oil spills.

We use Oway hair colours, perms, styling and beauty products. These are biodynamic, organic, vegan, cruelty-free, ethical, and Fair Trade. The highest quality ingredients are infused with essential oils and contain no ammonia, synthetic fragrance, parabens, SLS, SLES, PPG's or PEG's.

We keep it "clean and green" as what goes onto your scalp is absorbed into the bloodstream in 20 seconds and also washed into our water systems!

Oway packaging is reusable, refillable, recyclable and plastic-free. Precious Amber glass, sustainable wood, resin, clay or aluminium is used.

Eco-Friendly, Holistic Hair Salon & Day Spa

Offering you an exclusive range of natural and organic treatments, using the latest technologies designed to reduce energy, water and waste. Protecting both you and our wonderful planet.

Our wash-basin "Eco-Head" reduces water use by up to 65%

Treatments

Although hugely beneficial on their own, some treatments are a progressive service and maximum benefit will be experienced at the end of the full programme.

This will be discussed at your consultation and will be determined on how much the hair or scalp need healing. Treatments do not include a blowdry. However I do offer a reduced price of £15 for an added blowdry.

Herbs and Clay Peeling Cleanser £20

Stress, harsh treatments, bad diet, medications, hormones and intense daily life can take its toll on the hair and scalp. This aromatherapy, relaxation service works in accordance with the moon cycle to detoxify pollution and medicinal coatings, remove dead skin cells, strengthen the hair's structure, balance and relax the mind. Contains Amazonian pink clay, biodynamic savoury leaves, aromatic therapeutic grade essential oils, Horsetail and Soap Nuts.

Flowerfall

Three of the highest vibrational therapeutic grade essential oils. Lavender, Rose and Rosemary flow from a hydrate onto the third eye and throughout the scalp. This brings balance to the chakras and energy in the mind and body, brings a sense of peace and tranquillity, relieves headaches, eases a stressed or tight scalp and nourishes the hair.

Micro-Stimulation

Green tea, coffee and peppermint stimulate the dermis and epidermis and open the follicle to kick start the hair growth cycle. This treatment is perfect for lank, tired, run-down or shedding hair which has fallen due to pregnancy, hormonal changes, illness, shock or stress or from wearing wigs, weaves or extensions, or just to wake up thining hair or follicles which are in the sleeping stage.

Soothing

Anyone who suffers from a sensitive, itchy, irritated, tight scalp, tension headaches, eczema or psoriasis will be relieved by the calming, anti-inflammatory, cleansing and cooling properties of Helichrysum, Chamomile, Zanthoxylum, Teak, Mahogany, Aloe Vera and Fennel in this soothing, hydrating and calming treatment.

Purifying

With the help of Biodynamic Thyme and Rice Wax micro granules, this two step treatment purifies and delicately exfoliates the scalp, then the antibacterial and astringent actions of the Puri Complex with the phycosaccharide ACG regulate the sebum production. This targets dandruff and dry dandruff with the extra boost of organic Willow with the biotechnological compound Almeth.
